

Five steps towards The Organic Cuisine Label

With The Organic Cuisine Label you are able to officially document, guarantee and promote your efforts to further organic options, to your customers, guests and employees.

Step 1.

WEIGHT OR VALUE?

You can choose to document your organic percentage interval in weight (kilos) or value (Danish Kroner). Favourably, you can start by converting high quantity produce or produce of higher value to kickstart your organic conversion.

By converting to seasonal produce and prioritising organic sourcing of stable foods you can swiftly achieve an organic percentage interval of 30%

Step 2

ONE OR MORE SUPPLIERS?

If you only use one supplier/wholesaler, thus only have one invoice within a three month period, all you have to do is include that one invoice in your application. If you include products from multiple suppliers or wholesalers you are required fill out an 'organic accounting-sheet' (see Step 3)

Step 3

THE ORGANIC ACCOUNTING-SHEET

The organic accounting-sheet is your tool to calculate the combined organic percentage based on your purchases/invoices, calculated in weight or value. You are only required to fill out the organic accounting-sheet if you include products from multiple suppliers or wholesalers. The Excel accounting-sheet is easily downloadable at www.oekologisk-spisemaerke.dk

Step 4

READY TO SUBMIT YOUR APPLICATION

The application for your Organic Cuisine Label, requires a minimum of three months documentation from your supplier – or – three months documentation of all invoices structured in the organic accounting sheet. At www.oekologisk-spisemaerke.dk you can find a comprehensive movie tutorial, explaining how to submit your application via the website.

Step 5

HIP, HIP, HORRAY!

You have now officially submitted your Organic Cuisine Label application! When your application is approved, you will receive a free celebration packet containing a variety of marketing materials such as balloons and postcards. The materials are intended to assist you when celebrating your new Organic Cuisine Label and promote your efforts to support the protection of environment, nature and animal welfare.
